Destination Special

“ A 3 km long slope ranging from a height of 2519 to 3049 m is a major attraction. The Auli resort has snow beaters which beat the snow to keep the slopes fit for skiing at all times. A 500 m long ski-lift carries skiers back to the slope top, thus saving them the trouble and time to bridge up wearing long skis.

Auli is considered the best skiing slope in Asia. Both sides of the slope are covered with oak and coniferous trees which break the speed of the wind and this makes it ideal for skiing.
